

Project Completion Summary

Project Title: SR 91/71 Interchange Waterline, Project No. 2015-01

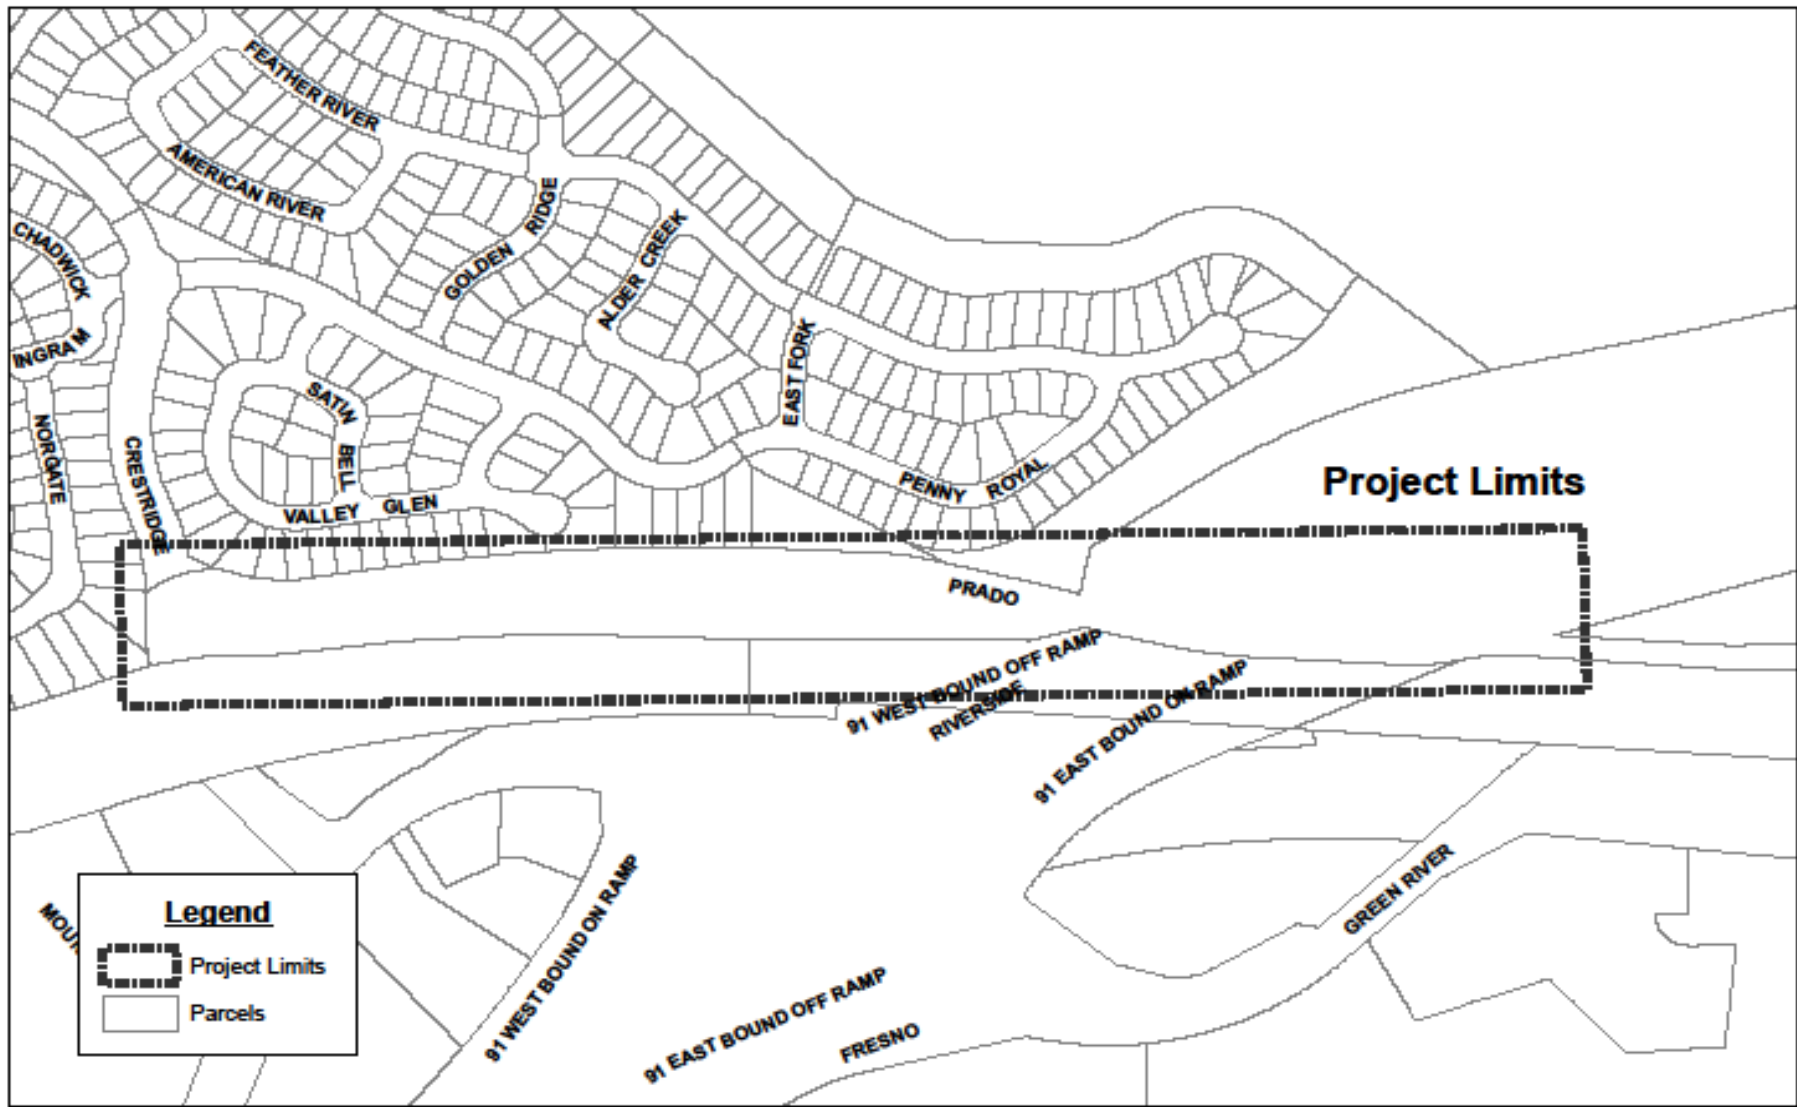

Location: Prado Road, near 91 FWY Overpass Bridge

Description: The project involved the construction of approximately 130 LF of 16-inch ductile iron pipe and abandonment of approximately 100 linear feet of existing 16-inch steel pipe. The purpose of the project was to relocate the waterline and allow for construction of the new proposed Green River Road on-ramp overhead bridge bent column that will be constructed by RCTC.

Schedule: Construction started October 2017 and completed in December 2017.

Project Cost: \$ 475,244.13

Funding: Water Utility Fund – 100% Reimbursement by RCTC
